

**Purpose:** To display the strategic coverage of the NSSP Objectives, 2010 DoD Task Force Recommendations, and SP-GOSC Priority Groups by DoD and other programs

NSSP Goals

- NSSP Goal #1** Integrate and coordinate suicide prevention activities across multiple sectors and settings
- NSSP Goal #2** Implement research-informed communication efforts designed to prevent suicide by changing knowledge, attitudes, and behaviors
- NSSP Goal #3** Increase knowledge of the factors that offer protection for suicidal behaviors and that promote wellness and recovery
- NSSP Goal #4** Promote responsible media reporting of suicide, accurate portrayals of suicide and mental illnesses in the entertainment industry, and the safety of online content related to suicide
- NSSP Goal #5** Develop, implement and monitor programs that promote wellness and prevent suicide related behaviors
- NSSP Goal #6** Promote efforts to reduce access to lethal means with identified suicide risk
- NSSP Goal #7** Provide training to community and clinical service providers on the prevention of suicide and related behaviors
- NSSP Goal #8** Promote suicide prevention as a core component of health care services
- NSSP Goal #9** Promote and implement effective clinical and professional practices for assessing and treating those identified as being at risk for suicidal behaviors
- NSSP Goal #10** Provide care and support to individuals affected by suicide deaths and attempts to promote healing, and implement community strategies to prevent further suicides
- NSSP Goal #11** Increase the timeliness and usefulness of national surveillance systems relevant to suicide prevention, and improve the ability to collect, analyze, and use this information for action
- NSSP Goal #12** Promote and support research on suicide prevention
- NSSP Goal #13** Evaluate the impact and effectiveness of suicide prevention interventions and systems and synthesize and disseminate findings

NSSP Objectives

- 1.1** Integrate suicide prevention into a broad range of organizations and programs with a role to support suicide prevention efforts
- 1.2** Establish effective, sustainable, and collaborative suicide prevention programming at the Departmental, Tribal, and local levels
- 1.3** Establish and strengthen collaborations across Federal agencies to advance suicide prevention
- 1.4** Develop and sustain public-private partnerships to advance suicide prevention
- 1.5** Integrate the public-private partnership with health care reform efforts
- 2.1** Develop, implement, and evaluate communication efforts designed to reach defined segments of the population
- 2.2** Research psychosocial with dedicated communication efforts
- 2.3** Increase communication efforts conducted by the public-private partnership to support safe crisis intervention strategies
- 2.4** Increase knowledge of the warning signs and risk factors of suicidal individuals and use this information for action
- 3.1** Promote programs and practices that increase protection from suicide risk
- 3.2** Reduce the availability and accessibility of lethal agents and substances associated with suicide risk
- 3.3** Increase the availability and accessibility of lethal agents and substances associated with suicide risk
- 4.1** Encourage and recognize new organizations that develop and implement policies and practices addressing the safe and responsible reporting of suicide and other related behaviors
- 4.2** Encourage and recognize members of the entertainment industry who follow the guidelines and safe messaging on suicide and related behaviors
- 4.3** Develop, implement, monitor, and evaluate the availability and accessibility of online communication technologies and applications
- 4.4** Develop and disseminate guidance for the entertainment industry on how to follow the guidelines and safe messaging on suicide and related behaviors
- 5.1** Strengthen the coordination of comprehensive, State-level, and local suicide prevention programming
- 5.2** Encourage community based settings to develop and implement suicide prevention programs that address the needs of the community
- 5.3** Increase the availability and accessibility of lethal agents and substances associated with suicide risk
- 5.4** Strengthen efforts to increase access to and delivery of programs and services for mental and substance use disorders
- 6.1** Develop, implement, and monitor programs that promote wellness and prevent suicide related behaviors
- 6.2** Develop and implement new safety technologies to increase access to lethal means
- 6.3** Develop and implement new safety technologies to increase access to lethal means
- 7.1** Provide training on suicide prevention and related behaviors to community and clinical service providers
- 7.2** Provide training to mental health and related professionals on suicide prevention and related behaviors
- 7.3** Develop and implement protocols for the most collaborative, responsive, and effective suicide prevention programming
- 7.4** Promote the availability and accessibility of lethal agents and substances associated with suicide risk
- 7.5** Promote the availability and accessibility of lethal agents and substances associated with suicide risk
- 8.1** Develop, implement, and monitor programs that promote wellness and prevent suicide related behaviors
- 8.2** Develop and implement new safety technologies to increase access to lethal means
- 8.3** Develop and implement new safety technologies to increase access to lethal means
- 8.4** Develop and implement new safety technologies to increase access to lethal means
- 8.5** Develop and implement new safety technologies to increase access to lethal means
- 8.6** Develop and implement new safety technologies to increase access to lethal means
- 8.7** Develop and implement new safety technologies to increase access to lethal means
- 8.8** Develop and implement new safety technologies to increase access to lethal means
- 9.1** Develop, implement, and monitor programs that promote wellness and prevent suicide related behaviors
- 9.2** Develop and implement new safety technologies to increase access to lethal means
- 9.3** Develop and implement new safety technologies to increase access to lethal means
- 9.4** Develop and implement new safety technologies to increase access to lethal means
- 9.5** Develop and implement new safety technologies to increase access to lethal means
- 9.6** Develop and implement new safety technologies to increase access to lethal means
- 9.7** Develop and implement new safety technologies to increase access to lethal means
- 10.1** Develop, implement, and monitor programs that promote wellness and prevent suicide related behaviors
- 10.2** Develop and implement new safety technologies to increase access to lethal means
- 10.3** Develop and implement new safety technologies to increase access to lethal means
- 10.4** Develop and implement new safety technologies to increase access to lethal means
- 10.5** Develop and implement new safety technologies to increase access to lethal means
- 11.1** Increase the timeliness and usefulness of national surveillance systems relevant to suicide prevention, and improve the ability to collect, analyze, and use this information for action
- 11.2** Increase the timeliness and usefulness of national surveillance systems relevant to suicide prevention, and improve the ability to collect, analyze, and use this information for action
- 11.3** Increase the timeliness and usefulness of national surveillance systems relevant to suicide prevention, and improve the ability to collect, analyze, and use this information for action
- 11.4** Increase the timeliness and usefulness of national surveillance systems relevant to suicide prevention, and improve the ability to collect, analyze, and use this information for action
- 12.1** Develop a national suicide prevention research agenda
- 12.2** Disseminate the national suicide prevention research agenda
- 12.3** Promote the dissemination of suicide prevention research findings
- 12.4** Develop and support a repository of research resources to help increase the amount and quality of research on suicide prevention and care in the aftermath of suicidal behaviors
- 13.1** Evaluate the impact and effectiveness of suicide prevention interventions and systems and synthesize and disseminate findings
- 13.2** Evaluate the impact and effectiveness of suicide prevention interventions and systems and synthesize and disseminate findings
- 13.3** Evaluate the impact and effectiveness of suicide prevention interventions and systems and synthesize and disseminate findings
- 13.4** Evaluate the impact and effectiveness of suicide prevention interventions and systems and synthesize and disseminate findings

DoD SP Programs
